Dividends are paid from current income and available earnings, after required transfers to reserves at the end of a dividend period.

### Compounding & Crediting

Dividends will be compounded and credited to your *share & club* accounts every month. If you close your account before dividends are credited, you will not receive accrued dividends.

### Dividend Period

The dividend period is monthly; dividends are credited to the member's account on the first day of the following month.

### Daily Balance Computation Method

Dividends are calculated by the daily balance method, which applies a daily periodic rate to the balance in the account each day.

### Accrual of Dividends on Non-Cash Deposits
